207 South Main St.

FIGHTING SUNDAY.

Russians and the Japs Engage In Another Battle.

Trouble With England Has Been Amicably Adjusted.

St. Petersburg, July 24.—Orders have been sent to the volunteer fleet steamers St. Petersburg and Smolensk to refrain from interference with foreign shipping. It is expected that these steamers will eventually join the Baltic fleet and be replaced by ordinary warships.

The Associated Press is able to state on the highest authority that the Russian and British Governments have agreed on a mutually satisfactory basis for a settlement of the question of the status of Russian volunteer fleet steamers in the Red Sea and the seizures by them of British ships.

The Japanese and Russian armies met Saturday six miles from New Chwang and the engagement is said to have been attended with heavy losses. One report puts the Russian loss at 700 and says the fighting continued Sunday. The Japanese are said to be slowly nearing New Chwang. Eight Japanese cruisers, conveying transports with troops, have arrived at Yin Kow. The Russians are anticipating a general advance by the enemy.

MADDOX MAY DIE.

Second Operation to be Performed This Week.

W. L. Maddox, the young man who had a leg crushed by a train at Springfield, Tenn.; last week, was brought to his home in this city Friday night. His leg was amputated and he stood the operation well, but gangrene has developed and another section of the limb will have to be taken off. As soon as the line of demarcation is established and his physical condition will permit, the second operation will be performed.

SEBREE MEETING.

Two Weeks' Series Will Begin To-morrow.

The annual Sebree camp meeting will commence tomorrow at Cascade camp grounds, one mile south of the town, and will continue about ten days. Most of the preaching will be done by the Rev. J. T. Newsome of Illinois. There are already a number of families camping on the grounds. Nearly all of the ministers of Sebree will assist Dr. Newsome in the series of meetings. The management is expecting a good attendance this year, as no meeting was held last summer.

MAY RECOVER.

Gen. Buckner Not Much Better But Doctors Have Hopes.

Munfordville, Ky., July 24.—The condition of Gen. Simon Bolivar Buckner is hardly so good as yesterday, which was the best day he has had since the beginning of the attack. His physicians say, while he is hardly as well as yesterday, yet he has not lost ground since then. His superb constitution and strong vitality, and the excellent care and attention he receives make his recovery very probable. Mrs. Buckner has never left his bedside since his illness began.

DANIEL DEAD.

Gangrene Set Up And Second Operation Was Performed.

Robert Daniel, col., who was injured by a train at Casky one night last week, is dead. The morning after the accident Daniel was brought here and one leg was amputated. Gangrene set up and it became necessary to operate the second time. He lingered until Thursday night.

STRIKE RESUMED.

Packers Refused to Take Back The Old Butchers.

All Indications Now Point To a Fight To The Finish.

Chicago, July 23.—Negotiations for the settlement of the strike which was resumed yesterday are off entirely and both sides declare that there is war until the other surrenders. A conference was held today which failed utterly to accomplish anything. The strike representatives demand that the men who apply for work should have it, up to the entire needs of the establishments, while the packers would not recede from their former position to employ just such men as they desired and in such manners as they thought necessary, looking to the provision of the arbitration agreement which gives them fifty-five days in which to restore all the union men to their positions.

CONTEST AT CROFTON.

Old Time Fiddlers to Entertain August 6.

Crofton is to have another Old Time Fiddlers' Contest. The date has been fixed for Saturday night, August 6. There will be about thirty performers on hand, among the number being several from this city. Handsome prizes will be given the successful contestants and the entertainment promises to eclipse any contest held in the county for years.

The program embraces about forty numbers, among them being individual contests, duets, quartets, etc. Tickets have already been placed on sale in Crofton and the prospects are that there will be a crowded house on the occasion. Quite a number from this city will attend.

SACK OF FOWLS.

John Henry Cole Charged With Stealing Chickens.

Sunday night some one entered Mr. C. W. Jones' henry on East Ninth street and carried off a number of fowls. At an early hour yesterday morning Officer George Walker arrested John Henry Cole, col., in that vicinity and locked him up. When taken into custody Cole had nine chickens in a sack, all with their necks broken. The negro confessed to the officer that he stole the chickens. He was held over to circuit court.

SMALLPOX AT EMPIRE.

Several Cases Reported But No Fatalities.

There are several cases of smallpox near Empire. There have been no fatalities from the disease, as yet, however. The county health officer has ordered all the school children of Empire and vicinity to be vaccinated and it is likely that a similar order will be enforced among the miners.

CLEAN AND COOL.

Ice Plant and Water Works Being Built.

The machinery for the ice plant at Cadiz has arrived, and is being put in place. The promoters expect to be making ice in ten days. The work of erecting the standpipe for the new water works at that place has also begun and will be pushed to rapid completion.

Died Away From Home.

The wife of Tom Bowman, col., of this place, died in Nashville Sunday, where she went to be treated for paralysis. She was 70 years old. The body was brought here last night and will be interred today.

Mrs. C. A. Cosby, of Texas, is visiting her sister, Mrs. Goldthwaite.

Remnant Sale.

All Remnants of Matting on Sale Next Thursday.

All 25c, 30c and 35c Mattings at 12c.

All 15c and 20c Mattings at 10c.

Lengths 2 to 18 yards.

T. M. JONES.

Main St. - Hopkinsville, Ky.

SUGG IN JAIL.

Participants Were Only Witnesses to Shooting.

Lee Sugg, col., who is charged with shooting Cleveland Cowherd, also colored, near Bolivar, was arrested by officer George Clark and is now in jail here. His examining trial is set for next Friday. It seems that the participants were the only witnesses to the shooting.

A subpoena has been issued for Cowherd, but his whereabouts are unknown, and it is doubtful about whether he can be located. One report is that he is dead, and another is that he is now in Tennessee.

Will Go to Paducah.

Mr. Jas. B. Allensworth has formed a law partnership with Mr. J. S. Ross, a leading young lawyer of Paducah and will move to that city August 1, to make his future home. Mr. Allensworth has been a prominent member of the Hopkinsville bar for 10 or 12 years, the last seven years of the time in partnership with Judge J. I. Landen, ex-judge of the court of appeals. He will leave many warm friends in this city, but he will enter upon his practice at Paducah with bright prospects. His partnership is a desirable one and he will occupy a handsome suite of rooms just vacated by Hon. J. K. Hendrick, whose growing business requires more commodious quarters. The Kentuckian commends him to the Paducah people and wishes for him unbounded success.

Mammoth Tomato.

Mr. Charles H. Anderson, South Virginia street, presented the Kentuckian with a mammoth tomato yesterday. It is of the Ponderosa variety, measures eighteen inches in circumference and weighs more than two pounds. Mr. Anderson reports many more nearly as large.

Brewer-Woodruff.

Philip G. Brewer and Mrs. Mary Woodruff, of the Red Hill country, were united in marriage Sunday afternoon by Rev. W. F. Crick, of the Christian church. The event occurred at the home of the bride's parents.

Wheat 90 Cents.

Wheat threshing is again under full headway and the bulk of the crop will be threshed this week if rain does not interfere. The price yesterday on the local market was 90 cents. A good many sales are being made at that price.

The Montpelier, Ind., Call says Mr. Robt. Howell, of that place, and Miss Helen Morris, of Hopkinsville, Ky., who was visiting friends there, were married at Muncie, Ind., last Thursday. Miss Morris has recently been a trained nurse at Indianapolis.

GOES TO LAKELAND.

Dr. J. W. Stevens Given a Promotion by Governor.

Becomes First Assistant Under Dr. M. H. Yeaman—New Man Here.

Frankfort, Ky. July 25.—Gov. Beckham Saturday filled the vacancies caused recently among the officials of the Central Asylum for the Insane at Lakeland by the resignation of Superintendent J. G. Furnish and the removal of First Assistant Physician C. C. Owens, appointing Dr. Malcolm H. Yeaman, of Henderson, to succeed Superintendent Furnish, and Dr. J. W. Stevens, of Todd county, to the place of first assistant physician. Dr. W. E. Gardner, of Hardin county, was named for the place of second assistant physician. The appointments are effective on Monday, August 1, next, when Dr. Furnish retires from the management of the institution.

First Assistant Physician Stevens comes to the Central asylum from the Western asylum at Hopkinsville, where, for several years, he has held the place of second assistant physician, and filled it capably. Dr. Gardner, the new second assistant at Lakeland, is a practicing physician at Glendale, Hardin county, and is also strongly endorsed. The successor of Dr. Stevens at the Hopkinsville institution has been selected by Gov. Beckham, and his appointment will be announced within the next few days.

Good Man Promoted.

Dr. Stephens, who will be transferred from Hopkinsville to Lakeland, has stood the test of several changes in asylum administration and is conceded to be a very efficient and capable physician for asylum work. He has kept aloof from factions and has attended strictly to his duties. During the four years and more he has been in the Western Asylum he has acquainted himself with all branches of the work and is qualified to bring to his work at Lakeland first class qualifications.

Dr. Stephens is unmarried, but his matrimonial prospects are said to be very bright.

JULY EXAMINATION.

Twenty-One Colored Applicants for Certificates to Teach.

At the colored examination for teachers in the county schools, held last Friday and Saturday, there were twenty-one applicants for certificates. The papers have not been graded.

PROPOSALS.

Sealed proposals are invited for the erection of a new laundry building for the Western Kentucky Asylum for Insane at Hopkinsville, Ky., to be accompanied by a certified check five per cent. of bid, to be delivered to Dr. Milton Board, Supt., at the asylum on or before noon Aug. 10th, 1904. Plans and specifications are at the office of Kenneth McDonald and J. F. Shebley, Architects, Louisville, Ky., and at the office of Supt. at Hopkinsville, Ky. Right is reserved to reject any or all bids or to waive formalities.

July 18, 1904.

PROPOSALS.

Sealed proposals are invited for the following work in connection with the two new wings for the Western Kentucky Asylum for Insane, at Hopkinsville, Ky.: The erection of a chimney, the erection of a boiler house and the erection of boilers and heating and ventilating apparatus. Work will be let in separate contracts for each of these three items. Bids will be accompanied by certified check to amount of 5 per cent of bid and will be delivered to Dr. Milton Board, Supt., at the asylum on or before noon Aug. 10th, 1904. Plans and specifications can be seen at the Supt.'s office or at the office of Kenneth McDonald and J. F. Shebley, Architects, Louisville, Ky. Right is reserved to reject any or all bids or to waive formalities.

AMPLE PROVISION.

Live Stock Buildings at the
World's Fair.

Ample provision is made for the displays of live stock at the World's Fair by a well located site, situated on the highest point of the grounds and adjoining one of the main entrances. The floor space of all the Exposition places covers less than 120 acres, while the several live stock shows will occupy about 200 acres, or 60 acres more than all the balance of the World's Fair exhibits under roof. The extent and value of the live stock show of the exposition is only partially understood by a very limited number of students of animal husbandry. Some idea may be gained from a brief summary of the provisions made for buildings.

Live Stock Forum.

The largest building on the site has been designated the Live Stock Forum, which is to accommodate the court by which the comparative merits of the various competitive exhibits of live stock are to be judged, and the awards announced to the public in attendance.

The live stock forum is located a short distance west of University Boulevard and with an adjoining station for the intramural road. The ground plan is elliptical and encloses an area of 250,500 feet. It is the largest amphitheater ever provided for displays of live stock. Only that portion of the arena given over to seats is roofed over, and the ring will be covered with sawdust or tanbark.

This is the only structure provided for the live stock department that can be given any notable degree of architectural effect commensurate with exposition construction. The building is given pronounced elevation effect by the use of upright columns in the exterior wall construction.

The forum is very substantially constructed and provided with eight tiers of raised amphitheater seats encircling the arena. The arena is surrounded with a six-foot promenade on a level with the ground floor. A substantial partition or fence separates the arena from the lower promenade. The upper promenade is within one foot of the upper tier of seats of the amphitheater and twelve feet in width. Two main entrances to the forum are provided for visitors, one located at the center of the east side and one at the center of the north end of the forum. There are twelve minor entrances for visitors, with suitable stairs from the lower to the upper promenade, on each side of the four main entrances and on one side of the twelve minor entrances.

The outside of the forum is enclosed and the amphitheater seats are amply protected. Provision is made for both day and evening exhibitions.

The Stock Barns.

The barns provided for the World's Fair exhibits of live stock are mainly 200 feet long by 46 feet wide, and provided for 3000 stalls 5 feet wide and 10 feet deep, and 350 box stalls 10 x 10 feet. Five at each end and on opposite sides of each barn. They are well ventilated, with good day lighting by windows, and electric lights by night.

Water is supplied by hydrants inside of and at each end of the barns; also by hydrant with watering trough, on a washing platform with grade and with sewerage facilities for carrying waste water away from the platform.

The stalls have stationary hay mangers full width of the stall and 36 inches high for horses, and are provided with loose feed boxes, 18 x 12 inches and six inches deep for grain. In each box stall are loose feed boxes for each end of the manger. The box stalls are constructed with open work in front from four feet above the ground, for convenience for seeing the animals within. Each open stall is provided with a lifting front door 4 feet high, for use during the show of swine and sheep. The dirt floors of the barns are to be maintained smooth, rooled, and covered with not less than three inches of saw dust or tan bark.

A line of guard posts, 4 x 4 is set three feet in the rear of the stall partitions, 15 feet apart—the posts 3 1/2 feet in height with hole three inches from the top and 1 inch guard rope extending east and west is provided with hook and

staple to fasten at each end of each 30 feet section of rope.

The loft of each barn extends from the sides of the barn over the stalls and toward the center of the barn 12 feet. Pulleys with ropes and hooks are provided on either side of each barn for hoisting feed and baggage to the loft which will be used as sleeping quarters for the herdsmen and the storage of the current supply of grain and forage. A stationary ladder leading to the lofts is located on each side at the end of each barn.

Barns are numbered on each end, and each stall is to be numbered with figures not less than four inches in height. Sign boards are placed at each end of each block giving its designation, thus: "East Block," "Central Block."

The grounds are supplied with suitably constructed water closets and lavatories.

Each barn is to be provided with a flag staff 12 feet high at either end, with rope and pulley.

Live Stock Review Park.

The live stock review park is provided for the purpose of assembling for the close, personal inspection of the press and the public, the horses and cattle as judged, and immediately after the awards in each section have been made. The stock will be conducted directly from the live stock forum as judged, to the review park adjoining, and be ranked in the order of merit as determined by the judge. Every facility will be provided for the press and the public in the review Park to give the animals critical and deliberate examination, to confer with the judge and to determine the respective merits of the entries and complete for publication a detailed review of the work of the judge in the Forum.

Live Stock buildings at the world's fair.

The review park is located near the forum and is enclosed with a woven wire fence four feet high, with a sliding, ten-foot entrance gate at the center of the East side, and a similar gate for exit located opposite, and in the center of the West side of the enclosure.

A roofed platform twelve feet in width is placed entirely across each end of the park, and on each writing tables and chairs are provided for the use of the representatives of the press.

Baseball Players and Footracers.

Louis J. Krugers, ex-champion long distance racer of Germany and Holland, writes, Oct. 27th, 1901: "During my training of eight weeks' foot races at Salt Lake City, in April last, I used Ballard's Snow Liniment to my greatest satisfaction. Therefore, I highly recommend Snow Liniment to all who are troubled with sprains, bruises or rheumatism." 25c, 50c, \$1.00 bottle. Sold by R. C. Hardwick.

Died at Sanitarium.

The remains of Miss Jane Perry, who died Tuesday in the Hopkinsville sanitarium, arrived here yesterday morning and were conveyed to the burning ground at Mt. Vernon by House & Son, the funeral directors, where they were interred. Miss Perry had been in the sanitarium for about three years.—Franklin Times.

TRY IT TO-DAY.

50 Cents a Bottle. All Druggists.

MUST BELIEVE IT.

When Well-Known Hopkinsville People Tell It So Plainly.

When public endorsement is made by a representative citizen of Hopkinsville the proof is positive. You must believe it. Read this testimonial. Every backache sufferer, every man, woman or child with any kidney trouble will find profit in the reading.

R. C. Morefield, Sr., real estate dealer and associated with the Christian County Title Co., residing at 222 W. Seventeenth street, says: "For several years the condition of my back and of the kidney secretions furnished ample evidence that I was suffering from kidney disorders. The aching in my back would come on by spells often so severe that it was painful for me to stoop or straighten up or to attempt any sudden movement. I saw Doan's Kidney Pills advertised locally and thinking that they might help me, got a box at Thomas & Trahern's drug store. I had used them only a few days when I noticed a marked improvement in my condition, and I continued the treatment. It did me more good than any medicine I had ever used and that is putting it mildly. You may publish my statement at any time and I will do all I can to let the value of Doan's Kidney Pills be known."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Remember the name—Doan's—and take no substitute.

Kentucky Fair Dates.

From April 25th to November 30th, limited to ten days from date of sale, \$9.65.

All tickets will be limited to continuous passage in both directions. E. M. SHERWOOD, Ag't.

Scholarship for Sale.

We have for sale at a great bargain a \$100 scholarship in the Southern School of Osteopathy, Franklin, Ky. Address KENTUCKIAN, Hopkinsville, Ky.

THE GREAT LAWSON STORY.

Everybody's Magazine, August, 1904.

That Everybody's Magazine really has the biggest "scoop" of the era in Thos. W. Lawson's "Story of Amalgamated" is abundantly shown by the first installment of the series proper which it in the August number. The foreword was portentous with promise of startling disclosures. The initial chapters introduce the secret organization of Standard Oil and its actual master, who is a person also unknown to the public. It is a wonderful picture Mr. Lawson gives of the huge business machine which has its headquarters at 26 Broadway, New York, and he paints, for the first time in his real colors, the man he declares to be the greatest business genius of the period, Henry H. Rogers. Then, with brutal directness, he describes how in dividing the profits of the Amalgamated deal, the biggest financiers in Wall Street were tricked and deceived like the venal crowd of tyros. It is said the most sensational instance of the double cross in modern finance.

The usual power and vividness of Mr. Lawson's writing would attract attention to subject matter less important than the tremendous financial tragedy he has set out to give to the world. And it is impossible not to be impressed by the earnestness of the man in depicting the methods of the great monopoly. His disclosures can hardly fail to create a sensation, which, as the other installments appear, will be full of menace to the flagrant juggling with money and honor which apparently goes on in financial centers. Under the stimulus of these extraordinary articles the July edition of Everybody's, 300,000, was sold out a few days after issue, a gain of 50,000 over the preceding month. The issue for August, generally the duldest month in the magazine world, is 330,000 copies.

The interest of the August number of this magazine, however, is not confined to Mr. Lawson's article. It is a most attractive issue, full of readable articles and light and entertaining stories. Vance Thompson presents some captivating pictures of the leader of Parisian society, the Duchess d'Uzes; another brilliant writer, Charles E. Trevelyan, describes the fascinating life of Saratoga in the racing season. Lindsay Denison tells several amusing political experiences in Campaigning by Special Train. A very personal and interesting study of Theodore T. Thomas, by Charles E. Russell, is particularly worth reading.

There are seven short stories—the longest, by Maximilian Foster, a capital picture of Hungarian children in the coal regions of Pennsylvania. O. Henry contributes one of his inimitable Central American comedies. There is a diverting social comedy by Justus Miles Forman, and a charming love story by Emily Watson. The second installment of "Hail Celine," "The Prophet Son," shows that in turning to the field of his early triumphs the Max novelist has regained his old power. This story will surely repeat the success of "The Manxman."

The Blind May See.

Dr. D. Garfield's Eye Remedy, cured hundreds in Tennessee who were nearly blind with sore eyes, granulated eyelids, watering, itching, burning, inflamed eyes, and wild hairs. Many had seen or pined for years, but were cured in one week. No matter how severe your case, let us know your name, address, Dr. D. Garfield, 609½ North Summer Street, Nashville, Tennessee.

The newest and most important weapon of war at the present time is the submarine, and the most interesting submarine of the moment is the "Protector," invented by Simon Lake and recently taken out of the country in a mysterious fashion. Sidney Mornington tells the whole story of Lake's efforts and successes in an elaborately illustrated article, which is the leading feature of the August "Cosmopolitan."

Cheerfully Recommend For Rheumatism.

O. G. Higbee, Danville, Ill., writes Dec. 2, 1901: "About two years ago I was laid up for four months with rheumatism. I tried Ballard's Snow Liniment one bottle cured me. I can cheerfully recommend it to all suffering from like affliction." 25c, 50c, \$1.00. Sold by R. C. Hardwick.

NEW CIRCUIT JUDGE.

Isaac H. Thurman is Named as Patten's Successor.

Frankfort, Ky., July 21.—Gov. Beckham today appointed the Hon. Isaac H. Thurman of Washington county, circuit judge of the Eleventh district of Kentucky. To succeed the late Charles Patten, of Campbellville. The appointment becomes effective immediately, and is until the November election, when the place is to be filled by the people. The district is composed of the counties of Green, Marion, Washington and Taylor, and Judge Thurman will be a candidate for election. It is said here that he will be without opposition in his party.

Cures Blood-Poison, Cancers, Ulcers, Eczema, Carbuncles, Etc., Medicine Free.

If you have offensive pimples or eruptions, ulcers on any part of the body, itching boils or joints, falling hair, mucous patches, swollen glands, skin itches and burns, sore lips, itching, scaling, festering sores, sharp, gnawing pains, then you suffer from blood poison or the beginnings of deadly cancer. You may be permanently cured by taking Botanic Blood Balm (B. B. B.) made especially to cure the worst blood and skin diseases. It kills the poison in the blood thereby giving a healthy blood supply to the affected parts, heals every sore or ulcer, even deadly cancer, stops all itching and burning, reduces all swellings. Botanic Blood Balm cures all malignant blood troubles, such as eczema, scabs and carbuncles, pimples, running sores, skin eruptions, etc. Especially advised for all obstinate cases that have reached the second or third stage. Druggists, \$1.00. Prove our cures. Botanic Blood Balm sent free and prepaid by writing Blood Balm Co., Atlanta, Ga. Describe trouble and free medical advice sent in sealed letter.

RECORD ORDER FOR WIRE NET

Panama Governor Wants 100,000 Yards to Keep Off Mosquitoes.

Washington, July 21.—General Davis, governor general of the Panama Canal strip, has advised the Panama Canal commission that he wants 100,000 yards of wire gauze to prevent mosquito invasion of the zone. Gen. Davis says that this will be perhaps the largest order for mosquito netting ever given. For the hospitals 20,000 yards will be needed, while for screening houses along the canal zone 75,000 yards will be required.

Scared to Death.

Dr. Francis W. McNamara, of Chicago, says: "Millions of people are made wretched every year by perhaps their lives shortened, by feeling that they have heart disease. They have a pain in that region, and their own diagnosis is sufficient to convince them of the malady. As a matter of truth, there is seldom any pain from heart disease. The trouble is indigestion only. The stomach, lying just under the heart, is distended to a painful degree by gases, and, crowding toward the heart, gives the pain sense to be in that organ." This opinion simply confirms the claim of Dr. W. B. Caldwell, who originated the formula of Syrup Pepsin. The trouble is indigestion and constipation. All druggists sell it, but be sure to ask for Dr. Caldwell's Syrup Pepsin.

Aged Learners at Harvard.

The Harvard Summer School has the distinction of having a group of students older than any other college can boast of. The oldest is Rev. Edward Robie, of Greenland, N. H., eighty-three years old, who is taking special work in theology. The next oldest is Dr. Leonard Vosey Bacon, a Congressional minister, of Assonet, Mass., whose lectures have been widely published in America. Dr. Bacon is seventy-four years old and is a tireless student. The Rev. W. Haskell, the Rev. Warren Ach, each sixty years old, complete a quartette, named the "Deans," of the summer school.

What's the secret of happy, vigorous health? Simply keeping the bowels, the stomach, the liver and kidneys strong and active. Burdock Blood Bitters does it.

In Rhea's District.

Greenville, Ky., July 21.—Chairman Roak has called the Democratic committee of the Third district to meet at Bowling Green July 30th, to name the time and place to hold a district convention to nominate a candidate for congress.

Beats the Signature of *Chas. H. Hittich*

Advice to the Aged.

Age brings infirmities, such as sluggish bowels, weak kidneys and bladder and TORPID LIVER.

Tut's Pills have a specific effect on these organs stimulating the bowels, causing them to perform their natural functions as in youth.

IMPARTING VIGOR to the kidneys, bladder and liver. They are adapted to old and young.

PLANT COMPLETE

And Engineer Hirsch Leaves For Van Wert, Ohio.

Mr. Gustav Hirsch, chief engineer of the Ideal Construction Company, who superintended the construction of the Home Telephone Company's plant in this city, left Friday night to begin a contract at Van Wert, Ohio. The telephone company at Van Wert has discarded the old-style instruments and will put in an automatic system about the same style as the one in use here. Mr. Hirsch leaves the Home Company here in good working condition, with about \$25,000 in operation, although the company began business less than three weeks ago. Mr. Hirsch put in the plant in about 100 days from the time dirt was broken. He is a thoroughly capable and experienced man in his branch of work, and a gentleman of most engaging manners and pleasant address. He will return here in about two months. In the meanwhile, Mr. Arthur W. Hoge will remain to look after the construction of county lines, which work will be pushed at once until the entire county territory is covered. Mr. Frank G. Hoge has been installed as local manager of the Home Exchange. His selection is very gratifying to the many friends he has already made in Hopkinsville.

Indigestion

With its companions, heart burn, flatulence, torpidity of the liver, constipation, palpitation of the heart, poor blood, headache and other nervous symptoms, indigestion, foul tongue, offensive breath and a legion of other ailments, is at once the most widespread and destructive malady among the American people. The Herbine treatment will cure all these troubles 60c bottle. Sold by R. C. Hardwick.

APPOINTED COUNTY JUDGE.

George V. Triplett Succeeds Late Judge Haskins In Daviess County.

Frankfort, Kentucky, July 21.—By appointment of the Governor, made today, the Hon. George V. Triplett, of Owensboro, becomes the successor of the late H. M. Haskins as judge of the county of Daviess. The appointment is until November next, when the place will be filled by election by the people of the county. The appointment went to Judge Triplett upon the recommendation of members of the bar of Daviess county and business men of Owensboro, who, in letters to Gov. Beckham, declared him to be well fitted to direct the fiscal and public affairs of the county. Judge Triplett has been filling the place of judge for several months by selection of the bar during the illness of the late Judge Haskins. He will be a candidate for election to the office. Mr. Yewell Haskins, son of the former judge, was an applicant for the appointment. Mr. Triplett is a brother-in-law of Gov. Beckham.

Croup

Is a violent inflammation of the mucous membrane of the wind pipe, which sometimes extends to the trachea and bronchial tubes; and is one of the most dangerous diseases of children. It almost always comes on in the night. Give frequent small doses of Ballard's Horehound Syrup and apply Ballard's Snow Liniment externally to the throat. 25c, 50c, \$1.00. Sold by R. C. Hardwick.

Here's A Tiny Baby.

The smallest baby ever born in Columbia county was that recently born to Mr. and Mrs. Edward Smith, of Berwick.

At the time of its birth two months ago it weighed less than a pound, but has grown slightly until it now weighs one and one-half pounds. It is perfectly developed in every way and appears to be in excellent health.

Beats the Signature of *Chas. H. Hittich*

15,000 JEWS

Fighting in the Russian Army in Manchuria.

St. Petersburg, July 21.—Rabbi Drabkin, in an interview had with him by the Associated Press, correspondents asserted that there were 15,000 Jews fighting in the Russian army in Manchuria. The Rabbi calls attention to the fact that when Jews fall in battle their burial is different from that which occurs when death results in other ways. The Talmudic law requires that those who fall in battle shall be buried in their blood. Therefore, the bodies of such are not placed in shrouds, but are interred in their clothes.

Although Jewish soldiers can officiate at such burials, Rabbi Drabkin thinks Rabbi should be sent to the Far East, together with the instruments prescribed by the Jewish ritual the only place in that region where these now are being harbored. The Russian Jews in Russia are subscribing immense sums for the aid of the families of their co-religionists in the field. Odessa alone having contributed \$125,000.

Condemned to Eat Jam.

During the voyage of the Graf Waldersee, which arrived here today, several cabin passengers complained to Capt. Kreh that some one had been robbing them of sweets. A watch was set and a little flaxen-haired girl was caught busily engaged in eating the contents of a jar of jam that she had found in the storeroom.

Capt. Kreh, who, on his ship, like all other captains, is judge, presided at Court of Appeals, listened to the charges with a stern look. Besides learning that the little girl had taken the jam, he also learned that her father and mother were poor and could not provide any sweetmeats for her. When the case had been presented Capt. Kreh pronounced her guilty.

"This is a very serious case," he said, "and I shall have to be severe. I therefore sentence you to eat the best jam this ship can produce every time you feel like it. The jam will be supplied by the steward."

They've Decided It.

The Irishman was not so much to be laughed at after all when he pointed to a toad and asked, "Faith, and what kind is a bird is that?" Frogs are poultry. The national treasury department has so decided. At the custom house the revenue collectors declare that frogs' legs are dressed poultry and must pay tariff duty accordingly. This reminds us of the English railroad guard who had been ordered not to permit dogs to be taken into the cars. A passenger presented himself carrying a young alligator in a box. The guard was puzzled for a moment, but only for a moment, when he arrived at this learned decision: "Cats is dogs, and rabbits is dogs, but a balligator is a dog." Jump aboard.—Up-to-date Farming.

LONG HOURS FOR NURSES.

Trained Servitors of the Sick Sometimes Go Several Days Without Sleep.

"It always makes me smile to hear men talk about their long hours," said a trained nurse, relates the Philadelphia Record. "If by any possible chance a man has not had his clothes off for 24 hours you never hear the end of it, unless perhaps the occasion has been an all-night poker game or something of the sort which he isn't so apt to talk about. But ordinarily he makes a great fuss over his long hours, particularly if due to stress of work or some unexpected duty. Now a trained nurse, even though one of the generally accepted 'weaker sex,' thinks nothing, when occasion demands, of going three or four days and nights without once closing her eyes. I was recently called on a typhoid fever case on a Thursday, and on the following Wednesday the patient died. In all that time I only had five hours' sleep, three hours Sunday afternoon and two hours Monday night. On rare occasions I have gone even longer than that without any sleep at all. Of course, we try to make up for it afterward, but it's a good bit like cheating nature."

Liberal with That.

Many a rich man has nothing but sympathy for the poor.—Chicago Daily News.

The August McClure's.

McClure's midsummer fiction number for August is simply a marvel of modern magazine making. In past years McClure's has made a great record with its fiction numbers, but the issue this year surpasses all others. In both text and illustration it fixes the standard of excellence. The stories without exception, are gems of their kind and serve admirably to illustrate how far the American short story has been perfected.

The number opens with a novelette of child life by Frances Hodgson Burnett, whose "Little Lord Fauntleroy" has been generally voted the most wonderful child story ever written. This is the story of a little girl, and to Mrs. Burnett has brought all the charming fancy of her earlier efforts. It is most beautifully and sympathetically illustrated in colors by Jessie Wilcox Smith.

In the short stories of this number the McClure Fiction writers appear to the best advantage, with a collection of rattling stories, rattlingly told. "A Tempered Wind," by O. Henry, is concerned with the humorous experiences of two country fakers on Wall Street; how they protected the "shorn lambs" and went back to "an honest living."

A little life may be sacrificed to a boy's desire. Cholera infantum, dysentery, diarrhoea come suddenly. Only safe plan is to have Dr. Fowler's Extract of Wild Strawberry always on hand.

NOW THERE'LL BE FUN

Memphis' Mayor Says He Will Suppress Gambling.

Memphis, Tenn., July 21.—Mayor Williams today replied as follows to the request of the Committee of public safety that he close gambling houses.

"Understanding in the above question the term 'gambling houses' to mean gambling of all kinds and at all places for money and for things of value, I beg leave to state in response to what I believe to be the demand of the public, as at present indicated by the press and pulpit, that I will do so to the best of my ability."

For the same reason the Mayor promises to see that saloons are kept closed from midnight to 4 a. m.

Cosmopolitan.

The Midsummer Fiction (August) number of "The Cosmopolitan" comes to us as the most diversified in its contents and the most beautifully illustrated of all the low-priced magazines of the month. It opens with an account of the genesis of Lake's submarine, the "Protector," whose destiny is of great interest to the world just at this moment. Other timely articles are "Railroads Above the Clouds," by Warren Harper, telling of the mountain railways of the world; and "Wall Street's Wild Speculation: 1900—1904," by Henry Clews a clear and instructive account of the methods of speculation pursued in Wall Street during the last four years and their inevitable outcome. The magazine prints the welcome announcement that the September issue will be devoted to the St. Louis Fair—an illustrated record so complete as to be a valuable souvenir to those who visit the Exposition and a source of satisfaction to those who stay at home.

Diphtheria relieved in twenty minutes. Almost miraculous. Dr. Thomas' Electric Oil. At any drug store.

Judge Muir's Funeral.

The funeral of the late Judge Upton Muir, who was drowned at Cape May, was held at Louisville Saturday.

Judge Muir carried life insurance amounting to \$16,000, the policies being in the Equitable Life of New York. The largest policy was for \$10,000 and was taken out in March of the present year. The other policies he had carried for several years. So far as could be learned yesterday Judge Muir was insured only in the Equitable. He had carried other policies at various times, but had allowed them to lapse. So far as known by his closest friends he carried no accident insurance.

Hives are a terrible torment to the little folks, and to some old-timers. Easily cured. Doan's Ointment never fails. Instant relief, permanent cure. At any drug store 50 cents.

FOR PRESIDENT.

JUDGE ALTON B. PARKER,
of New York.

FOR VICE PRESIDENT.

HON. HENRY G. DAVIS,
of West Virginia.

FOR CONGRESS.

HON. A. O. STANLEY,
of Henderson county.

Electoral Ticket.

CLAUDE M. THOMAS, Bourbon.
LILLARD B. CARTER, Anderson.

First District—C. C. Grassham, Livingston.
Second District—Brent Jennings, Hopkins.
Third District—Robert Harrison, Logan.
Fourth District—J. E. Barton, Boone.
Fifth District—Herman D. Newcomb, Scott.
Sixth District—E. R. Barton, Boone.
Seventh District—J. S. Morris, Adams.
Eighth District—W. R. Barker, Boyle.
Ninth District—C. L. Williams, Boyle.
Tenth District—F. A. Lyon, Jr., Boyle.
Eleventh District—R. C. Ford, Bell.

Senator George G. Vest, of Missouri, is critically ill and his death is liable to occur at any time.

The attendance at the World's Fair last week was 512,150, about 10,000 more than the previous week.

The cause of Judge Muir's death has been explained by a post-mortem examination. He broke his neck while diving in shallow water.

Henderson has annexed some outlying territory and now claims a population of 15,502, an increase of about one-third.

Samuel Hopkins Adams has a story of a crow in the August McClure's. His Caleb Powers article in the March McClure's was a story of "Three Black Crows."

The World's Fair is three weeks over, and the National Commission calls attention to the disappointing attendance and gives as a cause the lack of proper advertisement.

Memphis, Knoxville and other Tennessee cities are having a wave of anti-gambling excitement. Mayor Williams of Memphis says he will stop all forms of gambling, and will confer prize game prizes as a species of gambling.

Henry G. Overstreet has announced himself a candidate for representative from Daviess county, and will doubtless be given the Democratic nomination without opposition. He is one of the coming men of the Second district.

Jim Howard has been granted a writ of error and his case has gone to the Supreme Court. This is the last move to keep him out of the penitentiary, and the decision will have a direct bearing on the case of Caleb Powers.

The Democratic Committee of the Eighth District called a primary election for October 1, to nominate a candidate for Congress. It is considered a triumph for Gilbert, as the opposition to him is divided between Helm and Moore.

Deafness Cannot be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Halls Catarrh Cure. Send for circulars free.

Toledo, O.

Sold by Druggists, 75c.
Take Hall's Family Pills for constipation.

State Adoption of Text Books.

As our readers probably know, the recent Kentucky State Legislature passed a law for uniformity of school books throughout the State. Under this law the country schools and all graded schools without exception are required to use the same books. Those counties having county adoptions now in force, will not be required to change to the State adoption books until their county adoptions have expired, but all counties whose county adoptions have expired, and all city and graded schools in the State, will be obliged to use the books at once.

Under date of July 5th, the State Superintendent, Hon. James H. Fuqua, Sr., writes that as inspection of the returns from the County School Book Commissions throughout the State show that the books offered by the American Book Company are the ones selected according to law for State adoption for five years. We printed on July 12 a list of these books together with the retail prices. It will be seen by examination of these prices that the expense of books is so greatly lessened that the people of the State are to be congratulated upon having at last secured that which the legislature has been endeavoring for several years to accomplish. The reduction in expense will be fully one-third over the expense of school books under the old order of things.

The quality of the books, both as to subject matter and mechanical execution, is exceptionally good, considering the extreme low prices fixed by the legislature as a maximum price at which publishers should furnish them.

The new syllabi received one hundred and fifteen votes out of the one hundred and eighteen text book commissions that sent in returns; only one county in the State failed to send in its vote to State Superintendent Fuqua, at Frankfort. The new McGuffey readers are the equal of any readers published. These readers have been out but a short time, and the subject matter in the first, second and third and the illustrations are entirely new, and the same may be said of the fourth and fifth. The plan of these new readers is the same as the plan upon which the original readers were built, and hence the name McGuffey is retained. The Ray's modern arithmetics, which are found in the list, are equal to any arithmetics that have ever been written. It is the old Ray, re-written, but as the name would indicate, modernized with modified definitions and problems to meet the views and terms of the present day.

The natural geographies are first-class in every respect. The language lessons and grammars are those which have stood the test of time and are very widely used in the schools of this State at the present time as well as in the schools of other states. The physiologies on the list are new and are a series that has received the hearty commendation of the ladies of the Woman's Christian Temperance Union. The histories and civil government are books that have been widely used in the State heretofore and will, therefore, require no change in many of the counties in which they have been in use. Altogether, the quality of the books and the low prices are such that the people have good cause to rejoice, not only at the saving in money, but at the superior quality of the books that will be placed in the schools throughout the State.

It will also do away with one hardship that has been complained of in the past, and that is the thing experienced by many poor people in moving from one town or county to another of having to purchase an entirely new outfit of books.

Under the law, the old books used by the children may be used in part payment for the new books purchased by them, the exchange price of the new book being 50 per cent of the retail price.

The Missouri Democratic Convention adjourned Wednesday after naming a State ticket headed by Joseph W. Folk for Governor, and adopting a platform indorsing the national declaration of principles recently made in St. Louis. Mr. Folk in his speech of acceptance declared that the battle against boot-lodgers was just begun and that if elected he would make Missouri the most unhealthy place in all the land for corruptionists. The rest of the ticket is made up of his friends. Folk controlled all but five counties of the state.

TWO PRISONERS

Brought Here For Trial Before U. S. Commissioners.

But Officer Found Official Dead, and They Returned to Owensboro.

Deputy United States Marshal George W. Gilliland returned from Hopkinsville Thursday morning in a rather bad humor. However, he was successful on his trip and had in custody two prisoners, charged with violating the government liquor law, says the Owensboro Messenger. Deputy Marshal Gilliland went to Madisonville on Monday for the purpose of serving two warrants. He arrested Aaron Wyan, of Providence, and Henry Bryant, of Madisonville, charging them with selling liquor without a special government tax.

The law requires that United States marshals shall take prisoners to the nearest commissioner from the point of arrest for the examining trial.

Hopkinsville has the nearest commissioner to Madisonville and the marshal summoned five witnesses and took the train for Hopkinsville. Deputy Gilliland, proud of his successful trip, marched into what he thought was the office of Commissioner Harry Ferguson, at Hopkinsville, with his two prisoners and five witnesses.

"Where is the Commissioner?" asked the grizzled marshal of a young man in the office.

"I don't know," replied the youth. "Ain't this his office?" anxiously inquired the deputy.

"This was his office, but he has been dead two months," replied the boy.

"And d—n it they never notified me of it. Well this is too bad," continued Gilliland.

He went to the telephone and advised with his legal friends on the subject, who told him that Owensboro was the proper place to take his prisoners if there was no commissioner at Hopkinsville.

Deputy Gilliland left his witnesses at Madisonville to recuperate after the trip, but he brought his prisoners on to this city.

Deputy Gilliland is wondering if the government will require him to pay the railroad fare of the prisoners and witnesses to Hopkinsville and return.

J. R. Neighbors, a saloon keeper at Elizabethtown, Ky., assaulted Mrs. Carrie Nation with a chair as she stood in front of his saloon denouncing the liquor traffic and these engaged in it. She was struck twice, once on the head, which would bleed profusely, and on the shoulder. He was held over under a bond of \$300.

The final bulletin of the negro census of the United States has been issued and the number is put at 9,204,531. This was four years ago. There are more now.

Editor W. B. Haldean, of the Louisville Times has gone to Esos to see Judge Parker. He wires his paper that the presidential candidate may visit Louisville during the campaign.

Monday, Aug. 1, at the Court House door, the T. L. Youts farm will be sold, and any one wanting a desirable country home, would do well to attend the sale. The farm is well improved and contains 165 acres of good land.

Little Damage Done.

Mrs. A. G. Boales' residence, on Sixteenth street, was slightly damaged by fire late Thursday afternoon. The flames originated in a closet and were extinguished by the fire department in a few minutes.

AUGUST AIR.

Very Hot Spell Due About Tenth of Month.

Frosts May Make Their Appearance Over Northern Regions Latter Part of August.

The weather for next month, summarized from Hicks' prediction published in Word and Works, will be about as follows: On and touching 3rd, 4th and 5th general storm conditions will develop. After heavy storm and bluster, look for rising barometer and cooler. About 9th or 10th the temperature will rise to some of the highest readings of the summer. Severe storms and bluster will visit many localities in their sweep from west to east. This heated spell will not break up until the middle of the month. Vicious thunder storms and high gales will center about Sunday, the 14th. Reactionary storm conditions will return about the 20th. Change to rising barometer and very much cooler, especially at night, will follow for some days, the reactionary storms centering about the 18th to 20th.

The last storm period for August is central on the 26th extending from the 24th to 29th. Look for marked storm disturbances at this time. The general disturbances at this time will be followed by a high barometer, with fierce, high winds and unseasonably cold weather out of the Northwest. Frosts will likely make their appearance over the northern to middle regions of the country during the last few days of the month. The dates upon which volcanic and earthquake disturbances are most likely to reach a maximum, generally over the globe, will be the 10th to the 13th and the 24th to the 26th.

NOW ENROUTE.

Three Young Tennesseans Walking to World's Fair.

Quite a unique trip, has been planned to the St. Louis Exposition by Emmett Edwards, Dr. L. F. Sory and Joe Thompson. The three gentlemen will leave the L. & N. depot at Adams at noon, Thursday, July 21, without a cent of money for St. Louis, says the Adams, Tenn., Enterprise. They will walk or ride on trains, as the occasion presents, getting their food as they can, the agreement being that they reach St. Louis in an unlimited number of days without spending anything, except what they may pick up on their way. They will be dressed in true "hobo" style—overalls, jackets, etc.—their clothes and money leaving here at the same time by express for their destination. A large crowd will doubtless see them off.

The State College of Kentucky, LEXINGTON, KENTUCKY.

The Agricultural and Mechanical State College of Kentucky offers the following courses of study, viz: Agricultural, horticultural, chemical, biological, mathematical, physical, general school, classical, mechanical, engineering, electrical engineering, civil engineering, mining, engineering, each of which extends over four years and leads to a degree. Each course study is organized under faculty general. The faculty number nearly fifty professors and instructors. County appointees receive tuition, room, rest in dormitories, fuel and light, and if they remain traveling expenses. The laboratories and museums are large, well equipped, comprehensive and modern. The library is supplied with \$40,000 for a college home for young women and \$30,000 for drill hall and gymnasium for men. Both buildings are completed and in use. Military tactics and science are fully provided for as required by congress. Graduates from the several courses of study readily find excellent positions and liberal remuneration. The demand is largely in excess of the ability of the college to supply. Last year the matriculation was 720. Specialists with the necessary number of assistants have charge of each department of natural science. Summer schools are provided for pedagogy, engineering and instruction in science. The State College of Kentucky, though bearing hitherto the title of "college" is the only institution in the Commonwealth doing in any proper sense university work. The completion of the college house for young women provides facilities for good board and lodging. It is equipped with all modern conveniences, including bath rooms and rooms for physical culture. It is heated by steam and lighted by electricity. An opportunity is thus afforded to them of a thorough education in classics, modern languages, literature, science, mathematics, logic, metaphysics, history and political economy. No other institution in the State offers advantages for education of women so all comparable to those offered by the State College of Kentucky. For catalogue, method of obtaining appointments, information regarding courses of study, and terms of admission, apply to

Sound Advice on Mining Investments.

The Consolidated Alpine.

A pamphlet issued by Walter S. Logan, an experienced investing attorney, on "The Art of Investing," is a work that should be in the hands of every man, whether he is investing for income or speculation.

We have taken the liberty of quoting the most salient points in the little book.

Mr. Logan says: "There are two classes of investments: First, The investment made to secure a safe and assured income without either risking or seeking to increase the principal. Second, The investment whose primary object is to increase the principal and as to which the securing of present income is a secondary—or at least not the controlling—consideration."

Interest rates are steadily declining. When I first commenced practicing law in New York City a bonus was often paid by the borrower on a well-secured seven per cent. mortgage. Now a premium is paid by the lender on a four per cent. mortgage with no better security. My office is collecting for clients coupons on railroad bonds issued twenty-five and thirty years ago, and carrying six and seven per cent. interest. Now, as the bonds are paid off, we are glad to

ly on interest money is certainly not encouraging.

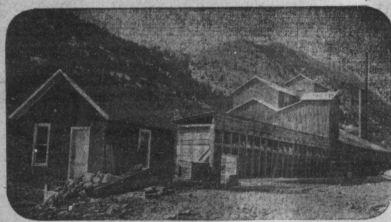

"Mortgages can be had in limited quantities which will insure four per cent., with good security, for not to exceed five years. Bonds yielding three per cent. for twenty years are to be had, but it would be difficult to find to-day a fifty-year investment in the nature of a loan with an adequate margin of security against future contingencies which would yield more than two per cent."

"If a four per cent. five year mortgage, or a three per cent. twenty year bond is taken, it is doubtful if the five-year investment can, when it becomes due, be re-invested to yield three per cent., or the twenty-year investment to yield more than one and one half per cent."

"There are three reasons for this evolution in interest rates that is going on:

"1. The aggregation of accumulated capital is constantly increasing as the world and the people in it get richer. There is more money to lend and competition pulls down the price.

"2. There are more people seeking to live without self supporting labor on the income of invested capital—more who wish to confine their

The Alpine Mill.

re-invest the money in good three per cent. bonds. Five per cent. government, state and municipal bonds, could, at the period I am speaking of, often be bought at a discount. Now three per cent. municipal bonds and two per cent. United States bonds command a premium.

"The lowering of the interest rate is still going rapidly on. At times there is a tight money squeeze and rates go up, but taking it year by year, the rate is steadily going down. In ten years from now the prevailing rate for good securities is quite as likely to be below as above two per cent. and Government bonds may come to sell on a basis as low as one per cent."

"The outlook for any one whose income depends directly or indirectly

BARNES NOTES.

Barnes, Ky., July 22.—The people of this neighborhood are all very busy threshing wheat.

Mr. L. B. King is very sick at this writing.

Mr. W. E. Mitchell, of Sturgis, and Mr. J. W. Mitchell, of your city, visited their sister, Mrs. Harry Haddock, near this place, last Sunday.

Mrs. E. M. Barnes is suffering from a felon on her finger.

There will be an ice cream supper at Ford's chapel Saturday night, July 30. Everybody is most cordially invited to attend.

Mr. Henry Warner, who was shot by Gip Watkins, is now improving very rapidly and will soon be out.

The corn crop looks very flattering in this neighborhood at this time.

On July 11 the death angel entered the home of Mr. Jim Knight, and claimed for its own his lovely daughter, Mary. She was kind and loving and was liked and loved by all who knew her. She was about 17 years old. She had only been sick for a short time with typhoid fever. Weep not dear father and mother, for your loss is her eternal gain. Oh, how hard it is to stand by the death bed of our loved ones, but it is God's will, not ours. We can not call them back, but we can go with them.

HONEY BEE.

LOG ROLLING.

W. O. W. to Meet at Dawson in August.

Preparations are being made to hold the largest Woodmen of the World Log Rolling at Dawson August 19 and 20, ever held in the South.

The big meeting will be held in beautiful Riverside Park, which was opened at the beginning of the present season, about a half mile from town on the west bank of the historic Tradewater river.

There will be a grand barbecued dinner on each day. Meals will be served on the ground at all times and everything will be done to make the visit of the Choppers and their friends pleasant and enjoyable.

Prominent Woodmen speakers from different parts of the country will be present.

A prize of \$25.00 in cash will be awarded the best drilled Uniform Rank team for competitive drill work, the contest to be decided and governed by competent and disinterested judges.

A prize of \$15.00 will be awarded the victorious camp in the log rolling contest, the logs to be rolled and piled two best out of three, a log rolling contest to take place each day. As many camps may compete as desired, only members of the W. O. W. being eligible to take part in the contest, the winners to be decided as above.

A mock initiation of a Woodman will be given in the Hamby Vaudeville Theater on the evening of Aug 19th. This will be one of the funniest and most interesting features of the big meeting.

A number of W. O. W. brass bands will furnish music on both days. There will be some good shows on the grounds, horse racing, base ball games, all of which and many other features will be announced on the program.

Help Those Who Help You.

While Nashville, Evansville and other places charge 2 and 2½ cents for collars and 4 and 5 cents for cuffs the Hopkinsville Steam Laundry only charges 1½ cents for collars and 3 cents for cuffs per pair. Their pay roll for hands alone every week is over \$200, which is all spent among our merchants. Don't you think it worthy of your patronage and support? If you give us your work, we call for it and deliver same to you promptly. We are also prepared to wash your sheets, pillow and bolster cases, table cloths, etc., and guarantee the work to be better than a washer-woman can do. Help your home industries, they patronize you, and they should have your trade in return.

Geo. V. Triplett, the new county judge of Daviess county, is an experienced newspaper man, and one of the most prominent citizens of Owensboro. He has the ability to make an excellent official and the popularity to retain the position in the contest before the people. He will serve under the appointment until November, 1905.

BASE BALL

Hooier Boys Will Play Three Games Here.

Then Henderson Team Will Arrive For a Series of Games.

Games are scheduled for this city five days this week. Vincennes will be here today, tomorrow and Thursday, and Henderson follows in a series of games with Hopkinsville. The Hoosiers have been playing great ball recently and some of the best games of the season are expected at Athletic park this week. Some fine ball playing is also in store for the fans when the tall-enders arrive on the local diamond.

The game here last Thursday between the locals and Clarksville was won by Hopkinsville, the score being 9 to 8. The locals scored one run in the first inning. Neither side again made a run until the fifth inning when the visitors got a man across the home plate. In the sixth the Hopkinsville boys made several costly errors and Clarksville succeeded in running in six scores, making seven runs in all for the visitors. In the last half of this inning, however, the Browns rallied their forces and made five runs. Clarksville failed to score in the seventh, but Morris for the locals, knocked the ball over the right field fence, making a home run. This tied the score. In the eighth neither side was able to score. The visitors made another run in the ninth. When Hopkinsville came to the bat Meander hit for two bases, Pettifer singled, and Morris gave the visitors a hot liner, which they were unable to handle, and the two men on bases scored and the villagers were defeated. The local team went to Clarksville Friday and played the first game of a series in the afternoon, winning the contest by the score of 9 to 6. This was a twelve-inning game. The contest was close and exciting, until the seventh inning, when the Browns ran in four men.

In the ninth Morris knocked a two bagger, bringing in three more runs. Clarksville tied the score in the ninth. Neither side scored again until the twelfth, when with two men on bases Morris made a home run. Bomar's work in the box and Morris' slugging were the features of the game. Bomar struck out twelve men.

About 25 Hopkinsville people went over to Clarksville Saturday to see the second game between the Browns and Grays. The triumph of the day before was, unfortunately not repeated by the Browns, who went down in defeat by a score of 7 to 3. The team came home at night but returned yesterday morning to finish up the series at Clarksville. The locals were expected to break even on the six games, having won two of the five previously played.

Standing of Clubs to July 24.

Paduach	69	45	24	652
Cairo	62	45	27	625
Clarksville	70	35	35	500
Hopkinsville	72	31	41	430
Vincennes	70	28	42	400
Henderson	73	29	44	397

On The Fly.

A Henderson dispatch says: "Umpire Popp was this week released. He started out all right but the teams soon became dissatisfied with his decisions and it was decided to call him in. The league has not been having the best of luck with its umpires this season."

Popp was on duty at Clarksville Saturday and the understanding was that he would act again yesterday. He has been doing fairly well in this end of the league. He is a great improvement over Shuster.

Capt. Wilkinson, of Vincennes, now heads the list of all the K. I. T. league players in hitting. His average in thirty-one games is .402. Long follows with .400. Wilder leads on the Cairo team with .314. There are only seven players batting .300 or better. Wilder who is regarded as one of the best players on the Cairo team, lives at Evansville, Ind., and it is understood he has received several offers to go

into a bigger league next year. Hurley who was released by Cairo, was signed by Clarksville and is playing good ball. Moore has an average of .367 the only Hopkinsville man above .300. Morris is next with .285. Maender has .257, Peipho .252, Alexander .245, Ferrell .242, Bomar .229, Collins .204, Marre .146, Brady .137. Pettifer, the new man, is in the .300 class.

Cairo is having troubles of her own. Joe Schwab, the best hitter and fastest outfielder of the team jumped the Tadpoles. Schwab left Thursday night for Popular Bluff, Mo. He will play with the independent team of the city.—Paduach Register.

Clarksville turned out Saturday in brand new suits of gray. No wonder they put up a good game.

New suits of the finest quality have been ordered for the Paduach team. The coats are to be of gray with blue trimmings. The suits will be blue.

Mullen, formerly with Hopkinsville, later sold to Greenville, in the Cotton States league, is with Henderson. Brabic struck him out three times and Freeman fanned him once. Mullen was once a hitter.—News-Democrat.

Cairo and Paduach are matched this week for seven games, four at Cairo and three at Paduach.

Pettifer pitched again at Clarksville Saturday, and while he did fairly well, the left field was weakened by the experiment. Clarksville put forward its best pitcher and the victory was an easy one.

Morris' latest nickname is "Foxy Grandpa."

Most of the battered boys are getting over their injuries and are in position to play good ball this week.

Peipho's lame leg is about well again and he went to Clarksville with the locals yesterday. When "Germany" is at himself there are few better short stops in the league.

Vincennes beat Cairo Sunday and once more entered the 400 class.

CUBAN PROPHET

Says United States Will Lose Half Her Possessions.

Within three or four years the United States will find itself involved in a disastrous war with Mexico, Cuba, France, Germany and some other Power. European or American, the name of which I am at a loss to give at present. As a consequence of this war the United States will lose a great deal of its territory and power; in fact, nearly half of that which it possesses today. Mexico will raise itself to the front rank of nations, recovering some of its territory lost to the United States—such as California, Texas and New Mexico. And Porto Rico, Haiti and Santo Domingo will solidify with Cuba into one nation.

The writer is not a Mexican, as you may perhaps conjecture, but a Cuban in full possession of his mental faculties and a friend and admirer of the Yankee people, and one who believes, although he is not a Spiritualist, and for some reason that he can't explain, that for a fraction of a moment the veil of the future has been torn aside and enabled him to predict the events cited above.—Havana El Mundo.

BIG CAVE

Discovered in Letcher County By Party of Explorers.

One of the largest caves ever discovered in Eastern Kentucky, and one that will perhaps rival the great Mammoth Cave in Edmonson county, has just been discovered on Line Fork Creek, in Southern Letcher county, near the Perry county line. A party of sight-seers explored its mysterious confines to a distance of over seven miles. The party were unable to find any end to the natural wonder. A large, swift-flowing stream of water was discovered rushing on into undiscovered regions. Fearing to go any farther the party returned. Another party will be organized to explore the cave to its extremity. Several other caverns have been discovered in the Line Fork region, but this is the most extensive yet discovered.

Died of Consumption.

Pomp Merritt, col., died in the city Saturday night of consumption. He was about 50 years old.

HAIR GROWTH

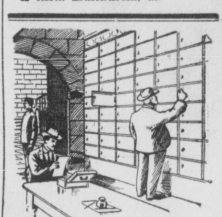

Promoted by Shampoos of

Cuticura SOAP

And light dressings of CUTICURA the great Skin Cure and sweetest of emollients.

This treatment at once stops falling hair, removes crusts, scales, and dandruff, destroys hair parasites, soothes irritated, itching surfaces, stimulates the hair follicles, loosens the scalp skin, supplies the roots with energy and nourishment, and makes the hair grow upon a sweet, wholesome, healthy scalp, when all else fails.

Sold throughout the world. Cuticura Soap, 25c. Ointment, 50c. (In form of Chocolate Creamed Soap, per box of 50.) Agents: L. J. Conner, 100 N. 2nd St., St. Louis, Mo.; J. C. Carter, 100 N. 2nd St., St. Louis, Mo.; J. C. Carter, 100 N. 2nd St., St. Louis, Mo.

Safety Deposit Boxes to Rent

In our burglar and fire proof vaults. At nominal cost private individuals or business men can put their important papers and valuables in a secure and convenient place.

This is a boon to those who do not possess a safe and to families traveling. These boxes are accessible during all business hours to the renter, who holds the key.

The Truly Magical Art of the Silhouette

Cutting Pictures from a Sheet of Black Paper With a
Pair of Scissors.

HERE

is no art in black

and white that can produce

anything to equal the beauty

of a first-class silhou-
ette.

Capt. Tharp, of England,

the artist whose pictures are here re-

produced, has been pronounced to be

the finest silhouettist in the world.

No one who has seen his marvelous

work can doubt for a moment this as-

sertion.

His pictures of sporting scenes in

which he depicts the most, display a

masterly accuracy of treatment and a

complete knowledge of the subject.

Since quite a small boy he has

studied deer from nature. It used to

be his delight to watch them in the

parks. Concealed behind a tree, he

would take notes of the antlers and

the forethrusting of their forms and

they stood grazing around him. Then,

on returning home, he would seize

scissors and paper and from this he

would attempt to cut out the animal

while their shape and attitudes re-

mained vividly impressed in his mem-
ory.

Once, after visiting a circus, he re-

members sitting down on the hearth-

stone and cutting out from a piece of old

newspaper the dancing maids on

horseback and the tumbling clowns as

he saw them there. These were, no

doubt, rather crude productions, but

unmistakably clever for a boy not five

years old. They showed a talent that

with practice might be developed.

His early work was all carefully pre-

served by his father and pasted on the

wall, side by side with his later and

more finished productions. Thus he

was encouraged, year by year, by be-
ing able to note the improvement he

was making.

As is usually the case with artistic

prodigies, he was not bombarded by

friends, begging for their portrait, or

"just a little scene of the hunt," that

he became utterly wearied of his work

and, for a time only, he was in fit-
ness and staid.

Later, when serving with his regi-
ment in India, Capt. Tharp felt the de-

sire to silhouette come over him again.

But in such a broiling temperature he

found it impossible to manipulate the

paper. His fingers became as black as

the silhouette itself, and he was

eventually forced to discontinue it un-
til he returned to England.

But, although he was not practicing

his art, his residence in India had its

compensating advantages. It afforded

him ample opportunities, of which he

was not slow to avail himself, of

studying the wild denizens of the jung-
le, which he loves to portray.

The silhouette must necessarily

leave much to the imagination there is

no shading to relieve the features of

the picture. All depends on the per-
fection of the outline to convey an im-

pression of, so that the mind's eye

may fill in the details.

Stags are, perhaps, the most diffi-

cult of all animals to delineate cor-
rectly. The perspective of the horns

changes with the slightest turn of the

head; the very gracefulness of the

body and the slender legs are bor-

rowed from a certain ungainliness, so

to say, shown in their various atti-
tudes.

To glance at the illustrations of this

article one would imagine that the

artist who "scissors" these out of

black paper must be an expert

draughtsman.

This is not the case. On the con-

trary, if anyone asked Capt. Tharp to

make a pencil drawing of even the
simplest of his works he would fail
completely.

This is a problem that even the art-
ist himself fails to explain. Give him
a pencil and paper and he can do
nothing, but exchange the former for
scissors, and amidst trying bits of
paper, he will in a few minutes pro-
duce a picture.

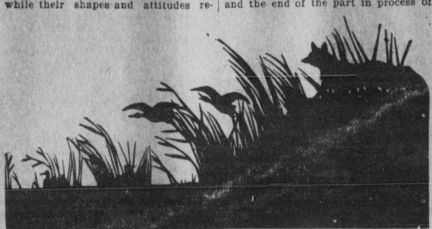

Take, for instance, the group of red-
deer. Here the slightest slip of the
scissors would have severed the grace-
ful antlers and spoiled the silhouette.

To draw such a picture from mem-
ory would task the skill of the most
competent artist for several hours.

Every now and then he would become
dissatisfied with the posture of one
of the deer, run it out, and redraw it.

When the outline had been produced to
his satisfaction he would ink it over,
and it would be complete.

All this is denied to the worker in
the "black art." Every time he snips
his scissors it must be the beginning
and the end of the part in process of

A REALISTIC SCENE.

construction. There is no remedy for
an ungainly pose but to commence the
scene all over again.

It would be more correct to call sil-
houette-cutting a gift rather than an
art. No amount of practice will en-
able anyone to produce such pictures
unless he has a natural talent for the
work.

The artist who aspires to this meth-
od of delineation must possess two
qualities—an accurate eye for form,
and a steady hand. Without both
these, he can do nothing. Steadiness
of the hand is absolutely necessary,
especially in the production of the fine
linings work shown in some of the
illustrations.

Before commencing to work, he
must have a perfect image in his mind
of what he intends to produce. Until
the artist with brush and pencil, he
cannot improve or embellish his ideas
as he goes along. No, he must begin
with a fixed purpose, and end with
that purpose. Again, he cannot with
a few seconds' application of the rub-
ber eradicate any defects. When
once a piece of paper is cut out it is
gone forever. No amount of india-
rubber can replace it. This shows
that the silhouettist must be a more
ready artist than he that wields the
pencil, for one misstep may neces-
sitate commencing the picture afresh.

The materials and tools for silhou-
ette-cutting are neither costly nor nume-
rous. They consist of what is called "sur-
face" paper (unplastered), which is a
black on one side. For mounting his
pictures Capt. Tharp, the silhouettist,
uses the best cardboard, which can be
bought at any stationer's.

Ab, but what about the scissors?
You will say.

The magic "shears" he uses are
either ladies' embroidery or surgical
scissors, very sharp and long in the

shaft, with fine-pointed blades, and
rather loosely screwed together. But
usually, most of his work is executed
with quite ordinary scissors.

To the aspirant who would be a fin-
ished silhouettist, Capt. Tharp offers
the above little points of information,
with the reminder that a true silhou-
ette is that which is cut out by hand
from one piece of paper, without a line
of drawing, or patch work of any de-
scription.

Public Speakers in Europe.

The level of public speaking in Eu-
rope is perhaps still a high one, but
there are no lofty eminences. This can
hardly be a consequence of democracy,
for it is in democracies or in law
courts, which are for the moment dem-
ocratic, that the most splendid orators
have revealed their powers; and we
cannot but hope that in the fierce
struggle which is now opening, a struggle
which will break up parties and dis-
solve friendships, new men will be
thrown up who will carry to the people
that illumination of which they still
stand so grievously in need—Spec-
tor.

Bad Blood Is The Enemy of Good Health

It is no more reasonable to expect to get good
health from bad blood than it is to expect to get
a good crop out of bad soil. Bad blood is and
always must be the enemy of good health. The
several organs of the body are nourished by
blood. If the blood is bad, that is to say im-
pure, or if it is deficient in red corpuscles, par-
ticularly known as "poor" blood, the vital organs
of the body must be weakened.

In general the impurity of the blood is marked
by surface eruptions, such as boils, pimples,
eczema, tetter, scrofulous sores, or erysipelas.

Dr. Pierce's Golden Medical Discovery cures
disfiguring eruptions, heals scrofulous sores, and
cures other results of impure blood, because it
cleanses the blood of the impurities which cause
disease. It acts directly on the blood-making
glands, increasing the quantity and improving
the quality of the blood.
